DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-39 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1-39 are drawn to a hydraulic structure, which is not disclosed in the specification.

With respect to claims 1-39, no rejection on art is proper at this time due to the informal nature of the claims as noted above in the 112 rejection.

Remarks:

Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.
